University Malaya Medical Centre

• Course Information

This Basic Musculoskeletal Ultrasound Course will teach radiologists how to understand and perform musculoskeletal ultrasound of the major joints conducted by two of the most experienced teachers in Malaysia.

The number of MRI examination of the joint at UMMC has decreased by 20% with the use of ultrasound as the first line investigation.

Hands 'on' experience is emphasised with four participants to one machine and maximum of 16 participants ensuring you will be able to do the procedures.
